

IDEAL

Bridging Cultures

Empowering **Citizens**

Shaping Inclusive Democracies

Join us in shaping an IDEAL Europe!

We are revolutionizing democracy in the EU by breaking barriers of culture and language:

Inclusivity at the Core: Ensuring everyone, including the under-represented, has a voice in decision-making, no matter their background

Collaboration Through Innovation: Using crowdsourcing and AI to foster meaningful discussions and solutions

Enhanced Engagement: Co-creating multilingual tools and platforms for seamless cross-cultural dialogue

From mobile apps and experimental pilots, to policy recommendations, IDEAL empowers citizens and communities to co-create the future of democracy.

This project has received funding from the European Union's Horizon Europe research and innovation programme under grant agreement No 101178191.
